Monthly Manual Delivery of Daily Data $12 setup fee initially and at time of renewal
plus $5 per station for each month of subscription period

Example: Monthly delivery of daily data for one station for a period of one year would cost:
$72 = ($12 + 12 x $5)

Example: Monthly delivery of daily data for three stations for a period of six months would cost:
$102 = ($12 + 3 x 6 x $5)

Automated Delivery of Daily Data via email

$35 setup fee initially and at time of renewal
plus $10 per station for each year of subscription period

Example: Automatic daily delivery of daily data for one station for a period of one year would cost:
$45 = ($35 + 1 x $10)

Example: Automatic daily delivery of daily data for one station for a period of two years would cost:
$55 = ($35 + 2 x $10)

Effective September 1, 2001. Updated April 29, 2008.
